Report of the Port Health Inspector

by

T.D. BLOTT, B.Sc., B.S., M.B., D.P.H.

To the Mayor, Aldermen and the Councillors of the
Borough of Maldon.

Mr. Mayor, Ladies and Gentlemen,

I beg to present my ninth Annual Report on the sanitary conditions of the Port of Maldon, covering the year ending 31st December, 1962.

Although a great deal of time has been spent on the regular inspection of oysters, this has proved very satisfactory and other areas are now beginning to adopt our methods of inspection. I have even had visitors from America who have come specially to see how we control the cleansing of shellfish in the Blackwater.

There has been a considerable change recently in the type of shipping using the Port. The export of gravel continues to be a major industry. Less eels now arrive in the Port by boat the majority being brought to Maldon by car.

Neither your Port Health Inspector nor myself have been able to attend the Annual Meeting of the Sea and Air Port Health Authorities and it is hoped that we shall be able to do so should a meeting arise nearer Maldon.

I am again indebted to your Port Health Inspector for his help in preparing this report.

I, am Mr. Mayor, Ladies and Gentlemen,

Your obedient Servant,

T.D. BLOTT,
Medical Officer of Health.

SECTION V - Water Supply.

(1) a&b For the Port. Water from the local supplies is obtained at the various Creeks for barges.

The chief supplies are obtained: At Maldon and Heybridge Basin from the Corporations water mains. At Tollesbury from the public supply. These are all above suspicion.

(2) Analysis of Water Samples.

Frequent samples of the public water supply are submitted for bacteriological analysis. These always give results of the highest quality and the Analyst has always expressed himself entirely satisfied with the purity of the public water supply in the Port Health District.

(3) Hydrants & Hose Pipes.

The stand pipe at Heybridge Basin is efficiently maintained and satisfactory. Vessels are expected to provide their own hosepipes.

(4) For Shipping in the River: From a water boat from Brightlingsea in the Colchester Port District. There is only one water Boat. The sanitary condition of this vessel is satisfactory.

SECTION VI - Public Health (Ships) Regulations, 1952.

(I) List of Infected Areas.

The list is maintained at the office of the Port Health Inspector. It is amended as and when the circumstances demand and copies are supplied to H.M. Customs Officers and local pilots.

(2) Radio Messages.

No arrangements or facilities exist for the receipt or transmission of messages by radio.

(3) Notifications Otherwise than by Radio

Any such notifications from inward vessels would be given to the pilots or Officers of Customs and then passed to this authority.

Upon such information being received inward ships are immediately boarded by an Officer of the Authority.

MOORING STATIONS

(a) There are no docks in which a suitable mooring station could be designated

(b) An outside mooring station has been designated near the mouth of Bradwell Creek.

(c) In view of the extreme difficulty of rapid communication with vessels moored in the lower part of the estuary, the Customs Officers have been instructed to allow of boarding or leaving the ship, where the declaration of health and all other circumstances are satisfactory.

(5) Arrangements for:

(a) Hospital accommodation for Infectious Diseases is available at the Infectious Diseases Hospital, Chelmsford.

(b) Local Surveillance is maintained by Officers of the Authority. Information concerning Contacts in other areas is forwarded to the responsible Authority.

(c) There are no special arrangements for the Cleansing or disinfecting of ships. Persons, clothing and other articles would be landed and arrangements made for the cleansing as required.

SECTION VII- Smallpox.

(1) The North East Metropolitan Regional Hospital Board are responsible for the treatment of persons suffering from Smallpox and provide hospital accommodation, as and when required.

(2) Ambulance facilities are provided by the Essex County Council, who are responsible for the vaccinal state of the ambulance crews.

(3) Dr. J.D. Kershaw, Medical Officer of Health, Borough of Colchester.

(4) No special arrangements have been made for the laboratory diagnosis of smallpox.

SECTION VIII - Venereal Disease.

Facilities exist for the treatment of both out and in-patients at the Essex County Hospital, Colchester. Out-patient treatment is available as follows:-

Mondays:	Males	6 p.m. to 7 p.m.
	Females	5 p.m. to 6 p.m.
Fridays:	Males	3 p.m. to 4 p.m.
	Females	2 p.m. to 3 p.m.

It has not been considered necessary to take any special steps to make this information known to seamen.
